

I don't care much for people who know more than I do, neither do I like a man who has never been broke.—Jim's Junk.

THE SALT LAKE TRIBUNE

Established June 6, 1870.

SALT LAKE CITY, UTAH. FRIDAY, JUNE 21, 1907

12 PAGES. Price, Five Cents.

When you buy look at the goods and not at the polish on the office furniture or the peroxide in the stenographer's hair.—Private Burke.

STATE AGAINST DARROW WILL BE PASSED TODAY

Defense Will Make a Motion That the Jury Be Instructed to Bring in a Verdict of Not Guilty.

Should the Court Deny the Motion Clarence Darrow Will Make Opening Statement for Defendant.

Boise, Ida., June 20.—Unless there should be unforeseen delay in securing a couple of final pieces of evidence, the state will tomorrow close its case against William D. Haywood, whom it charges with the murder of Frank Steunenberg. This announcement was made this afternoon by Senator Borah, one of the special attorneys, and when Clarence Darrow of the defense took up the discussion of the arrangement of time, he made it very clear that directly the state closed he and his associates would move the court for an instruction directing a verdict of acquittal. It is now anticipated that the state will close by noon, that the afternoon session will be devoted to argument of the expected motion of the defense, and if the court rules adversely on the motion, the opening statement in behalf of Haywood will be made by Mr. Darrow on Saturday.

Connection With Pettibone's Store.

The prosecution succeeded today in again showing a direct connection with the store of George Pettibone in Denver and Harry Orchard at work on the Bradley crime in San Francisco, and promises to make the connection with Pettibone personally by handwriting experts who will be called tomorrow. Original records of the Pacific Postal Telegraph company were produced that showed that in September and October, 1904, remittances of \$97.50 and \$48, respectively, were made, the first by "J. Wolf," and the second by "P. Bone," from 1725 Stout street in Denver—the address of Pettibone's store—to "H. Green," in care of Peter L. Huff at 211 Taylor street, San Francisco.

Telegraph Office Records.

W. V. McCartney, who was cashier of the Denver office of the Postal Telegraph company in the fall of 1904, came here from Cheyenne to identify and explain the records that showed the remittances. The exhibits included both the application forms and telegrams of instruction ordering the payment of the money at San Francisco. "J. Wolf" and "P. Bone," both waived the identification of "H. Green" at San Francisco, and it is claimed that the handwriting of the money order was the same, and that it is the same as in the letter Pettibone wrote to the Mutual Life Insurance company when Harry Orchard joined that corporation as a solicitor.

Articles From Miners' Magazine

ADMITTED IN EVIDENCE BY THE COURT

The jury was not brought into court this morning until after Judge Wood had handed down his opinion as to the admissibility of certain articles from the "Miners' Magazine" which were introduced by the controlling officers of the Western Federation of Miners toward Governor Steunenberg and other officials. Judge Wood said he had decided that many of the articles should be accepted. These were the ones written prior to the death of Governor Steunenberg. As to articles subsequent to that date, the judge declared that he would not resolve that doubt in favor of the defendant.

Difference in the Cases.

"In the case on trial, the evidence of the state purports to connect with one of the parties to the defense. The witness has stated that not only has he committed the crime, but he has charged, but several others as well and he is relied upon to show that the crimes were committed at the instance of this defendant and other defendants said to be the managing officers of the Western Federation of Miners.

CLEVELAND SUFFERING FROM ACUTE INDIGESTION, BUT DANGER IS OVER

Princeton, N. J., June 20.—According to a statement issued from the home of former President Cleveland tonight, the alarming reports sent broadcast concerning his condition are practically groundless. The statement follows: "Mr. Cleveland is suffering from acute indigestion. The report that an operation had been performed upon him today for the removal of a malignant growth, is absolutely untrue. No operation was contemplated. Mr. Cleveland is in no danger, and will be around again in a few days."

Job Still a Good One.

San Francisco, June 20.—Albert Langendorf, a policeman, shot himself through the brain at his home on Church street last night because he was unable to sleep. He feared that he would lose his mind and would be compelled to resign from the police force.

Price, Utah, June 20.—H. G. Williams, general manager of the Utah Fuel company, states that his company is making extraordinary preparations to avert a repetition of the coal famine of last winter in Utah cities and towns this year. He figures that the demand in the state will be 10 to 15 per cent greater than last winter, while the production of his company is only 10 per cent greater than last winter. The Utah Fuel company is equipping its mines most thoroughly with the latest machinery for handling its product expeditiously, but there is always the car shortage of the railroads to contend with.

Boise, Ida., June 20.—Unless there should be unforeseen delay in securing a couple of final pieces of evidence, the state will tomorrow close its case against William D. Haywood, whom it charges with the murder of Frank Steunenberg. This announcement was made this afternoon by Senator Borah, one of the special attorneys, and when Clarence Darrow of the defense took up the discussion of the arrangement of time, he made it very clear that directly the state closed he and his associates would move the court for an instruction directing a verdict of acquittal. It is now anticipated that the state will close by noon, that the afternoon session will be devoted to argument of the expected motion of the defense, and if the court rules adversely on the motion, the opening statement in behalf of Haywood will be made by Mr. Darrow on Saturday.

Wearry Day for Borah.

For the rest it was a day of reading with Senator Borah as first reader. Judge Wood admitted many of the strongly worded articles of the Miners' Magazine, in which Frank Steunenberg was bitterly denounced, and as one after another they were let in Borah read them to the jury. These were admitted as showing the animus of the federal officials against Steunenberg and as showing animus against Justices Goddard and Gabbert of the supreme court of Colorado, whom Harry Orchard swore he tried many times to kill. The state introduced in evidence the decisions of those judges on the Colorado eight-hour law and the habeas corpus application of Charles H. Meyer.

Judge Wood Took Pity.

The defense insisted that Borah read every word in both decisions, and the first, which took forty-five minutes to go over, was read before the noon recess and cleared the court of all save those whose duty required them to stay. The other was read with like effect soon after adjournment for the day. Then Attorney Richardson and Darrow called for the dissenting opinion in the Meyer case as a matter of fairness, and demanded that Borah read that also. Judge Wood took pity on the weary reader, however, and said that if the defense wanted the dissenting opinion it must designate a member of its counsel to read it. Mr. Darrow was selected as reader, but he will not be heard until tomorrow.

Objections and Exceptions.

To practically every piece of testimony offered during the day the defense first offered objection, then made a motion to strike out, and lastly took an exception on the record. To all evidence connected with the general conspiracy alleged by the state the objections of the defense included the question of the admissibility of the testimony of Harry Orchard, an alleged accomplice in the manner provided by the statute.

Articles Read by Borah.

Sensor Borah then read from a copy of the first issue of the magazine, the article written by Ed Boyce, in which he proposed to stand for the interest of the Western Federation of Miners and in a general way for the interests of all the laboring masses against the "predatory classes."

Steuenberg Denounced.

Sensor Borah also read from the issue of the magazine of February, 1901, an editorial entitled "Another Outrage," and dealing with the alleged circulation of a petition by Governor Steunenberg for the mining districts of Idaho. The editorial declared that the federal troops in Idaho were being used to suppress the union, and that Steunenberg was an "unscrupulous person never known to speak the truth."

Price, Utah, June 20.—H. G. Williams, general manager of the Utah Fuel company, states that his company is making extraordinary preparations to avert a repetition of the coal famine of last winter in Utah cities and towns this year. He figures that the demand in the state will be 10 to 15 per cent greater than last winter, while the production of his company is only 10 per cent greater than last winter. The Utah Fuel company is equipping its mines most thoroughly with the latest machinery for handling its product expeditiously, but there is always the car shortage of the railroads to contend with.
